

SPECTOR PRO®

RECORD. REVIEW. PROTECT.

KNOW EVERYTHING YOUR TEENS & PRE-TEENS DO ON THE COMPUTER & INTERNET

SPECTOR PRO® provides peace of mind for busy parents concerned about their teen's computer and online activity.

With the ability to monitor, record and even review video-style playback of their activities, SPECTOR PRO® has deservedly earned its reputation as the most comprehensive, trusted monitoring software in the world.

"I am very thankful for this program... it saved my daughter."

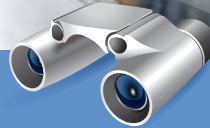

-Sheila F., Iowa

JUST PRESS PLAY

Watch a detailed video recording of everything they do online and on the computer.

Play, Fast Forward, Rewind and Pause video-style controls make it easy.

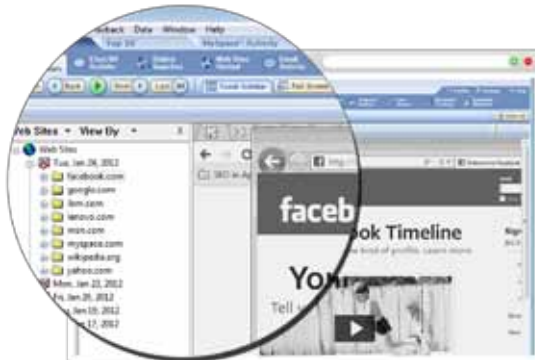

IT'S ALL IN THE DETAILS

SPECTOR PRO® captures every detail of online and computer activity including emails, email attachments, chat/IM conversations, websites visited and so much more.

INTERNET & CHAT BLOCKING

Take control of their use of the Internet by scheduling when they can go online. Restrict chat/IM conversations to include only approved people, or even block chat entirely.

VIDEO-STYLE PLAYBACK

Screenshot recording allows you to see not only what they do, but the EXACT order in which they do it, step by step. Screenshot playback is like watching a video of their online and computer activity.

RECORD AND BLOCK

All chat and instant message conversations are recorded by SPECTOR PRO®. In addition, you can block any website or person you feel is inappropriate.

FEATURES AT A GLANCE

See Their Online Activity

SPECTOR PRO® continually takes snapshots of the computer screen as frequently as once a second, or screen snapshots may be taken based on user activity, such as mouse clicks, page scrolling or new web page visits. This gives you an extremely accurate and visual view of what your teens have been doing on the computer. Reviewing the recordings is simple with easy-to-use, video-style controls.

Review reports of the websites your teen visits, how long they are there for and what it is they are doing, shown in the web report below.

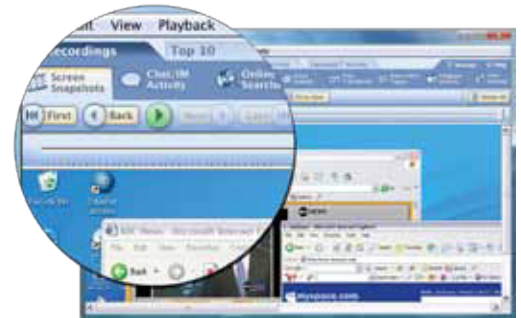

The report above shows you detailed information regarding the Top 10 websites your teen visits and their activity.

Screen Snapshots

Advanced surveillance screen snapshot recording allows you to see not only what your teens do on the computer and Internet, but in the EXACT order they do it, step by step.

- Video-style Playback
- Fast Forward/Immediate Rewind
- Data Stored Chronologically
- Advanced File Compression
- Inactivity Timeout
- Automatic Suspend/Resume
- Black & White or Color Recording
- Export to BMP, JPEG or AVI formats

Detect Danger

SPECTOR PRO® warns you whenever it detects inappropriate behavior. Through the use of keywords and phrases, SPECTOR PRO® is always "on alert", sending immediate and detailed reports of when, where and how detected keywords were used - directly to your email Inbox or cell phone.

About SpectorSoft

SpectorSoft monitoring solutions keep children safe online by providing parents the tools to monitor and record their children's computer, online and mobile device activity. The information gathered can be used to track, manage and notify parents of potentially dangerous situations. More than 900,000 consumers and 160,000 businesses, government organizations, schools, and law enforcement agencies have purchased SpectorSoft products to help protect children, manage risk, prevent data loss and address compliance mandates.
